84-1 83CD PHASE I
CLOSING THE DIRECT CASE

Since the Tribunal last convened on October 9, 1985, we have received several submissions filed by the parties for inclusion in the direct case. The Tribunal will accept: (1) Joint Stipulation of Joint Sports Claimants, National Association of Broadcasters and Canadian Claimants dated October 29, 1985; (2) Joint Stipulation of Joint Sports Claimants and National Association of Broadcasters, dated October 31, 1985; (3) NAB's submission regarding various matters, letter dated October 25, 1985; and, (4) exclusivity provisions from licensing agreements with KPLR-TV provided by the Program Suppliers, dated October 30, 1985. The Tribunal also clarifies the record, if it has not been clear, to reflect that NAB's exclusivity documents have been accepted into the record.

The Tribunal will not grant Joint Sports Claimants' request that Larson data be admitted into the record as JSC Exhibit 9X. The Tribunal understands that Exhibit 9X was Joint Sports' effort to respond to Chairman Ray's request. Chairman Ray is now satisfied that the information he was seeking is elsewhere in the record.

Regarding the Music Claimant's motion to strike a portion of NAB's Direct Case dated November 4, 1985, that motion is denied. The acceptance into evidence of the testimony of Raymond Nordstrand by the Tribunal was not conditioned on providing any requested documents. The extent to which not providing requested documents affects the weight of the evidence will be made by the Tribunal.

Accordingly, the direct case record is now closed.
